

The Academy of Veterinary Clinical Pathology Technicians

Continuing Education Documentation:

All continuing education must be in the area of clinical pathology. A **minimum of forty (40)** continuing education (CE) clock hours related to veterinary clinical pathology must be obtained. All continuing education must be completed within the last **six (6)** years immediately prior to application submission. No more than 50% of your total CE may come from electronic and/or printed sources. Continuing education must be received from an accredited veterinary technician school, school of veterinary medicine, RACE approved CE, national/state/local veterinary conference with approved CE. Scanned copies of a certificate of attendance or other proof of attendance for the continuing education must be provided to AVCPT.
